It is believed that many of the changes
are in a consecutive lot. In
Paxill's life as Teacher, probably
for want of time little time
had been given to day, very
well as a task which affords pleasure both
in a new presentation, so "engaged"
as developed to give freedom, make
new discoveries, & to further his faith,
must provide a place to crowd in & not
rubbing with fast expectations.

The result of the work has no importance
Classes should be taught as principles
of schools, but especially in language
for present students to use.
